

The Isle of Wight Children & Young People's Trust

Governance Arrangements

June 2007

The Local Government White Paper: Strong and prosperous communities published October 2006, outlined proposals to legislate for a new statutory partnership for health and well being under the Local Strategic Partnership (called the Island Strategic Partnership (ISP) on the Isle of Wight).

14.3 Accountability

The Trust Board is accountable to its constituent agencies and regulators. Through regular reports and published minutes it aims to be accountable to the children, young people and families of the Isle of Wight. It will at all times seek to ensure that it is representative of and understands the priorities of the children, young people and families on the Isle of Wight and is responding to their views and interests.

The Isle of Wight Children and Young People's Trust will aim to use plain language, communicate in a timely way, and to involve the public in meetings.

Each participant Board member remains accountable to his or her parent organisation.

15. PRINCIPLES

In pursuing these activities, the IOW Children & Young People's Trust and all constituent services and partners will, at all times, be guided by the following principles:

- 15.1 Outcomes – ensuring that the Board's agenda and decision making focus on adding value and tangible progress in improving outcomes for children and young people.
- 15.2 Equality –addressing the needs of all sectors of our Island community and seeking outcomes that promote genuine equality of opportunity for all.
- 15.3 Sustainability – ensuring that the services delivered or reconfigured are sustainable.
- 15.4 Inclusion – ensuring that all Island children, young people, parents, carers and families gain an increasing sense of ownership of and engagement with the process that transforms current provision into a Children & Young People's Trust and delivery of the Children and Young People's Plan.

16. KEY THEMES FROM THE CHILDREN & YOUNG PEOPLE'S PLAN

16.1 Safeguarding Children and Young People and Promoting their Welfare:

All plans, policies, procedures and services will protect children from maltreatment, prevent impairment of children's health and development and ensure children grow up in circumstances consistent with the provision of safe and effective care.

16.2 Diversity: People from minority groups will achieve in line with normal expectations:

Children having been treated equally will enter adulthood with a sense of belonging and being a responsible citizen of the Island.

All policies produced and services delivered will be subject to an impact assessment in respect of black and ethnic minority groups, faith and religious groups, gender and sexual orientation, learning difficulties/disabilities and/or those with physical disabilities.

16.3 Accessibility:

Rural Proofing: Services delivered locally from user friendly accessible access points (multi-agency community cluster groups) and the promotion of accessibility via e-government initiatives.

16.4 Not-for-Profit sector:

A mutual improvement in joint professional capacity through increase in contractual partnerships and more secure funding streams.

Participation of the sector is in line with the Compact Code of Good Practice on Consultation and Policy Appraisal, Funding and Procurement and the Children's Code.

16.5 The consultation, involvement, participation and engagement of all children and young people:

The Isle of Wight has an identified participation lead and an established participation reference group developing a Youth Participation Strategy and action plan based on an extensive Hear By Right Audit. The group co-ordinates the range of consultations and opportunities to be involved in how services are planned and delivered, supporting the participation of all children and young people. Work is underway to connect schools councils and local groups (such as the youth opportunities and capital fund panel, the Connexions young people's local management committee and the young people's planning event group more closely with parish and town councils, and they with the Youth Council and Youth Member of the Youth Parliament. Representation by young people on the Trust arrangements will therefore be determined by young people themselves through these arrangements.

17. OBJECTIVES AND PERFORMANCE MANAGEMENT

17.1 The work programme of the Children & Young People's Trust will be determined by the priorities and objectives set out in the CYPP aligned to the Sustainable Community Strategy, Corporate Plan (One Island, One Council), Local Area Agreement and Local Public Service Agreements.

17.2 The CYPP will be revised and up-dated every year in the light of the Annual Performance Assessment and Comprehensive Area Review.

17.3 Performance will be managed within a shared performance management framework and informed by Corvu (the IOW Council Performance Management Software tool).

18. THE ISLE OF WIGHT LOCAL SAFEGUARDING CHILDREN BOARD

- 18.1 The Local Safeguarding Children Board (LSCB) has a particular role to play in the partnership structure of accountabilities. The establishment of the Isle of Wight LSCB is an important element to improve safeguards for children and young people put in place by the Children Act 2004. It fulfils sections 13-16 of the Act. The LSCB and its activities are part of the scrutiny of the Children and Young People's Trust arrangements.
- 18.2 The LSCB has a key role to play in the scrutiny and holding to account of partner agencies for promoting the welfare and safeguarding of Island children and young people, a key theme outlined in the Children and Young People's Plan.

Status: The June 2007 inclusion of the role of Independent Chair may require Cabinet and/or Lead Member re approval.
