04/05 [RYDE PUBLIC REALM STRATEGY](#)

The Portfolio Holder gave consideration to the Ryde Public Realm Strategy (RPRS) which was a key element in setting a context for the physical improvements programmed for Ryde. The approval and development of the RPRS was required by SEEDA to release appropriate funding.

The Strategy set out key design principles for physical improvements in the town and therefore at this stage did not propose particular schemes. Similarly it did not identify traffic management proposals in the town, although its principles were identified. It was noted that at a later stage detailed orders may be required under the various Highways Acts to achieve implementation of the improvements related to the RPRS.

DECISION TAKEN :

THAT the Ryde Public Realm Strategy be approved as a basis for the implementation of physical improvements in Ryde.
