² - scans Saver Card or ticket obtained from fixed machine

³ - Scans QR code on mobile device

To explain the options in more detail

Option 1

SAVER CARD

- IDEAL FOR: Locals and regular ferry users
- COST: Discounted rates
- SUMMARY: Buy your card from SpyVelo or Halls Convenience Store, register it online, top up with credit, use the card to travel at a discounted rate. **From May 2017 foot passengers with a saver card will be able to 'tap on' to the ferry instead of having to be scanned by a crew member.**
- ADVANTAGES: Manage your account online, add multiple cards to your account, cancel lost or stolen cards, auto top up and fast boarding. The cheapest way to travel.
- More info: www.iwfloatingbridge.co.uk/saver-card

Option 2

MOBILE WEB APP

IDEAL FOR: Visitors and irregular users

- COST: Pay as you go
- SUMMARY: Go to iowfb.uk choose your vehicle type or enter pedestrian, enter your mobile number and hit go. Your phone will then display a barcode ticket that the ferry crew will scan once you are onboard. The cost of the ticket will be charged to your phone bill with no extra charges. There is an option to pay via PayPal (**using your credit/debit card**) instead of your mobile if you prefer.
- ADVANTAGES: You do not need to leave your car. It is the same price as the ticket machine. Tickets can be purchased up to 7 days before travelling.

Option 3

FIXED TICKET MACHINES

- IDEAL FOR: Emergencies only
- COST: Pay as you go
